

Property For Sale

St John Virgin Islands

If you’ve ever vacationed in an exotic location and wished you could stay forever, you’re not alone. Although it might seem unattainable, owning a piece of the rock can be your reality.

St. John is rich with history and culture. One of the most attractive aspects of St. John is the Virgin Islands National Park, which Laurance Rockefeller helped to establish in 1956. Since then, the VINP on St. John has grown to 7,200 acres plus 5,600 underwater acres. This equates to approximately 80 percent of the island remaining untouched, including pristine white sand beaches.

Visitors are attracted to this small island from all walks of life and from every part of the globe. Visitors and residents alike enjoy hiking trails, swimming, surfing, snorkeling, scuba diving, and sailing, along with an array of other outdoor activities.

Regardless of your budget, the brokers and sales agents of 340 Real Estate Co. can show and sell all the properties that are on the MLS whether it be Commercial properties, Residential homes, Land, or Condos. We have an up to date comprehensive online database of all the properties for sale on the St John Board of Realtors MLS as well as a database

of St John Real Estate Sales History, including MLS Homes, Land, and Condos sold on St John since 2009!

Whether it be for a week or a lifetime, contact us today and let us put our collective 50-plus years of real estate experience to work, helping you realize your dream of owning a piece of St John.”
